

Publikationen Christa Bodaan, DVM, DACVS-LA

Treatment of limb wounds of horses with orf virus IL-10 and VEGF-E accelerates resolution of exuberant granulation tissue, but does not prevent its development

Lyn Marie Wise; Christa Bodaan; Gabriella Stuart; Nicola Real; Zabeen Lateef; Andrew Mercer; Christopher Riley; Christine Theoret. PLoS ONE 13(5): e0197223.
<https://doi.org/10.1371/journal.pone.0197223>

Short-term treatment of equine wounds with orf virus IL-10 and VEGF-E dampens inflammation and promotes repair processes without accelerating closure.

Bodaan CJ, Wise LM, Wakelin KA, Stuart GS, Real NC, Mercer AA, Riley CB, Theoret C. Wound Repair Regen. September 2016 <https://doi.org/10.1111/wrr.12488>

Orf virus interleukin-10 and vascular endothelial growth factor-E modulate gene expression in cultured equine dermal fibroblasts
